AMBROSE

Dec., 1st, 1978.

Dear Mrs. Ambrose:

I received your interesting letter yesterday, and I enjoyed it very much. And because of that I feel that I must answer promptly.

There seems to be something wrong with the info. which you received from the lady in New York. I suspect that a generation has been left out between Johannes Jost, born in 1647, and John, Jr., who died in 1788. There is the possibility that John, Jr., was born about 1640-90, in order to be shown as dead in 1788, aged about 90 years. I have, for the moment, mislaid my Palatine Papers, so I do not feel that I should say any more, except that Schneider was a common German name, and there was possibly hundreds of Johns.

You ask where is the best place for information on Jacob Miller. I can suggest that Dr. Burleigh knows more about Millier, than Miller himself does. Try him out.

You ask about Presbyterian records. I can only suggest that you enquire from a Presbyterian Church in your vicinity, or, if you are a member of O. G. S., you might enquire from them. Anyhow, I cannot advise you.

I am packing up your request book, Amey's. I am also enclosing, 1st., Simmon's Journal, and 2nd., Sherwood's Account book, 1785-1810. The latter two books, as you will see, have no bearing on your families, except that they reveal how our ancestors acted and subsisted in those early days. I am also enclosing my latest booklet on the Bell Family. This last is an example of what your book will be like. My printer has given me a price for 50 pages and 100 copies, similar to the Bell Family booklet. The cost would be \$320 for the hundred booklets. I told him it was too much, but he wouldn't budge. I am sorry.

Should you want to keep these booklets, the prices are:

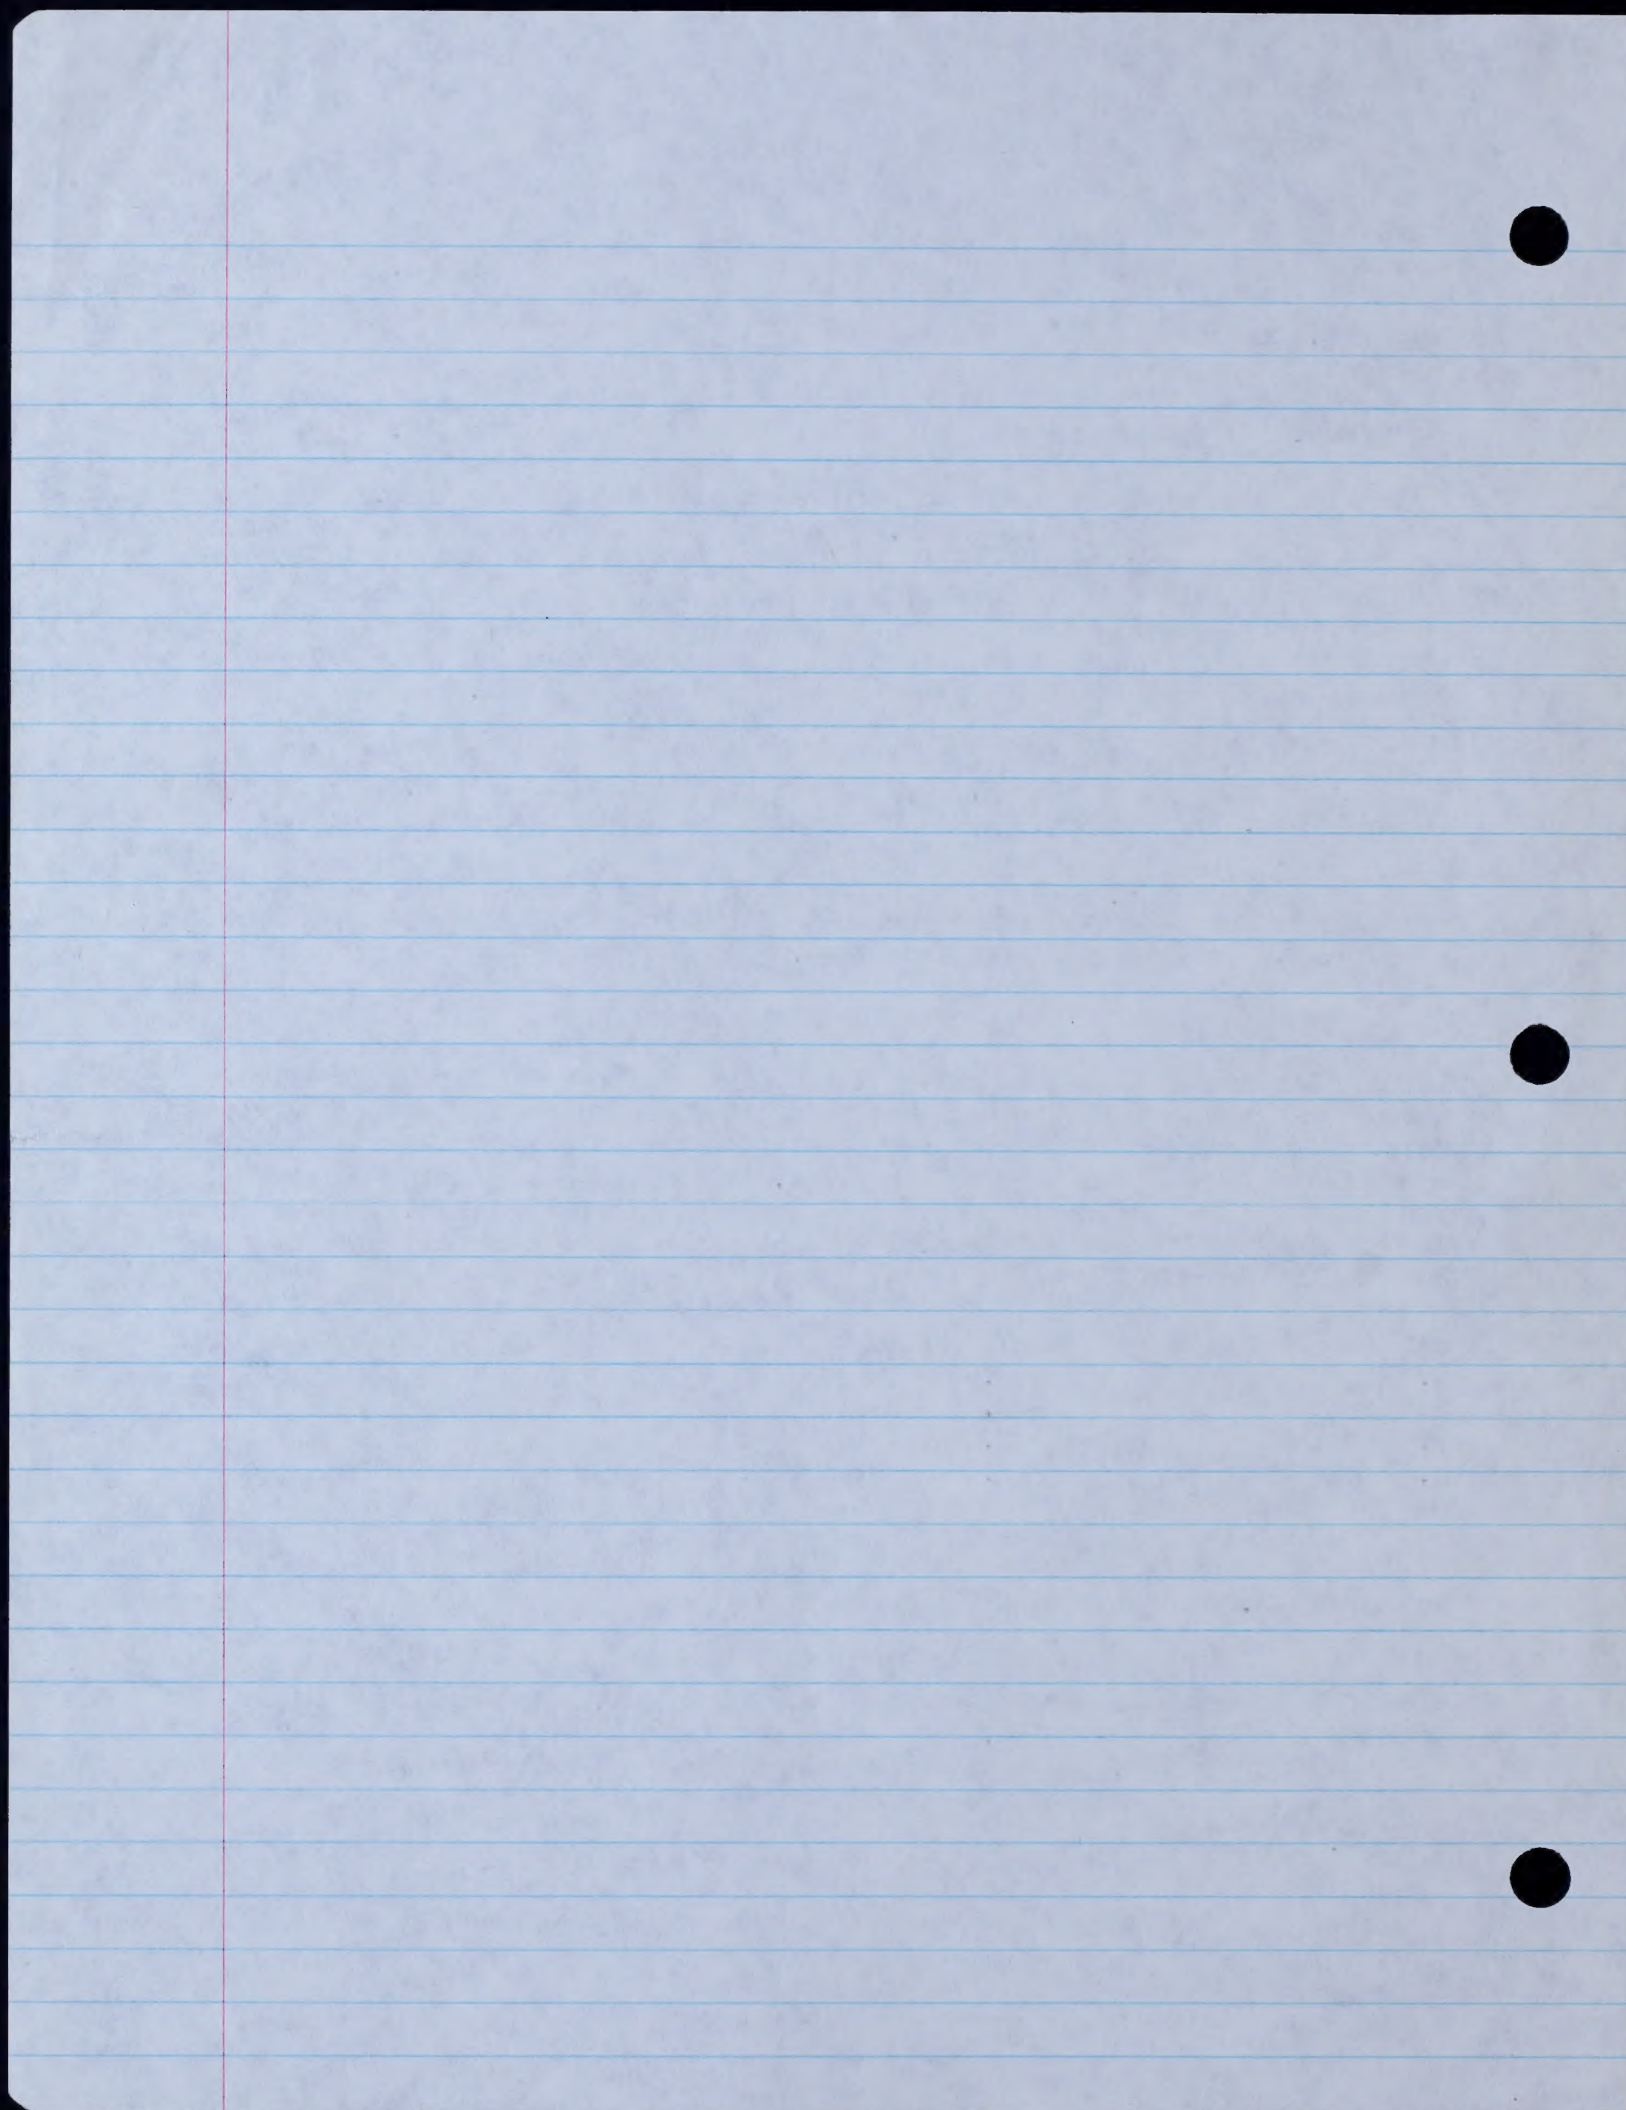

1. Amey Brothers	\$2.50	
2 Simmens	2.50	
3. Sherwood	4.00	
4. Bell	2.50	total \$11.50
You have already paid		6.00

If you wish, you can return any or all at no cost except your postage.

I have mislaid your letter and can't think of anything else except what I know about Jacob Miller, the Adj. I am sure that I have more on him than anyone else. The family that bought the Miller Farm found an old box in the attic. It contained some most interesting papers, some dated July, 1777. I fell heir to these, and I now own them.

Sorry about the printer's high price.

Loyally yours
